ABOUT US

Body Fit Training is Australia's newest and most advanced group training methodology. Since April 2018 we've sold over 50 franchises across Australia so we're a brand on the move. We've incorporated scientifically proven training techniques aimed at reducing fat and creating lean muscle into a variety of 50 minute training sessions that are overseen by accredited coaches in a dynamic group environment.

High levels of visual content showcasing our programs are shown on multiple digital displays throughout the studio and allow our trainers to spend more time concentrating on our members, while the screens direct the traffic! Our cutting edge, globally superior technology together with our 4-6 week progressive training blocks with unique strength and conditioning elements to complement our extensive cardio workouts makes us both **different**, and **better**.

ABOUT THE BENEFITS

We want you to be happy and love coming to work at BFT, so you'll be supported with an attractive remuneration package that will be tailored to experience and will include significant cash incentives, ongoing training and workplace flexibility, together with career progression opportunities including increased responsibilities and the potential to oversee multiple studios.
